

# MUSIC-BASED INTERVENTION RESEARCH STUDY

The Music, Imaging, and Neural Dynamics (MIND) Lab is seeking older adults with Mild Cognitive Impairment (MCI) to participate in a research study on how music listening affects brain activity and gene expression. To participate you must be:

- above 50 years old
- have normal hearing
- pass pre-screening phone interview

Eligible participants will be enrolled into an 8-week individualized music-listening program, complete surveys, listening and cognitive tasks, MRI scanning of your brain, and blood draws.

If interested or would like more information, please email the MIND Lab at **[mindlabwes@gmail.com](mailto:mindlabwes@gmail.com)**.
