

# MEMORY & AGING STUDY

**Do you have trouble with your memory?**

**Are you caring for a loved one who has trouble with their memory?**

**Do you have a normal memory but want to help support research?**

We're looking for adults 65 and older to join our study to understand how memory loss develops in the human brain. Once a year you will be examined by a doctor and have memory testing. Participants will be compensated \$40/visit.
